5.Create Waston assistant service with 10 steps and use 3 conditions in it.load that script in HTML page :

```
{
      "context":{
              "action:"trigger",
              "actionName": "supplierOnBoardingProcess",
              "actionType":"bpm"
      },
          "output":{
                "text":{
                        "values": [
                                "I am triggering the suppliert on boarding process. The process task is
visible at: https://vhost001.bpm.ibmcloud.com/bpm/dev/processportal"
                        ],
                         "selection_policy": "sequentia"
                }
          }
```

}
